

## Updates, Upgrades & UpBugs!

Partner News Volume 1, Number 2, August 2008

August, 2008

Hello **GoalTrak™** Channel Partners!

Over the weekend we released new versions of **GoalTrak™EV** and **GoalTrak™CV**. For the new channel partners in the group, our intention is to release new versions whenever important bugs are fixed, layout changes are made and new features are added. These releases will occur no less than quarterly, but our track record is about one per month. You might be thinking..."Wow! There must be a lot of bugs in **GoalTrak™** to have so many releases." This is not the case. Most releases have many more layout changes and new features based on feedback from you. These new releases are no different. Here's what's new:

- A layout change on the *Tracking* page that makes creating criteria a little more intuitive.
- The language for a replacement goal on the *Goal Done* page was changed to assure the user that the previous goal was not going to be deleted when the replacement goal was created.
- An option to extend a goal's target date was added to the *Goal Done* page. This option can be used when a goal needs just a little more time to get accomplished.
- When adding *Action Steps* to your goal or your to do list, the add window stays open allowing you to add as many actions steps as you want before closing the window.
- 2 new **GoalTrak™** Tips have been added. Be sure to read all these tips to see if any of your clients might benefit from them.
- 13 other minor layout changes
- and yes, 1 bug was fixed in **GoalTrak™EV** and 2 in **GoalTrak™CV**. Fortunately, we found these bugs and fixed them before any of the users found them.

A big thanks to Boyd Ober and his clients! Many of these changes were driven by their feedback. Rich & I are looking forward to getting feedback from all of you for the next round of releases.

Congratulations are in order for John Dame. He is the first one to take advantage of the new *Resources Links* in the header of his **GoalTrak™CV** site. These *Resources Links* are completely customizable and give the user links to resources that are valuable to them in the goal setting experience.

We are presently in the process of redesigning our web site and we are adding a "Partner" page to the site. This page will be available only to **GoalTrak™** Partners and will be a place where we can share information:

- New release notes (like this email)
- Post feedback
- Share sales techniques and goals
- Discuss best practices
- Address client user issues

That is all for now. Please let us know what you think of these new releases along with with your own suggestions for additional improvements. We can't promise to make all changes requested, but we want to continually improve **GoalTrak™** to meet your needs and the needs of all your customers.

Best Regards,  
Steve
